

MIKE-O-LUBE 200

HEAVY-DUTY CUTTING LUBRICANT

Description:

Mike-O-Lube 200 is a medium to heavy-duty fluid for machining and stamping ferrous and nonferrous materials. This product provides excellent lubricity and boundary film lubrication. The product is very effective in high speed operations on thin guage strips of steel, copper, and brass. Mike-O-Lube 200 significantly increases tool and die life and greatly reduces wear. Provides temporary in-process corrosion inhibition for copper and its alloys.

Mike-O-Lube 200 does not contain nitrates, chlorine, sulfur, phenols, molybdenum compounds or graphite. It contains no solvent and is considered a low VOC lubricant. Its performance, pleasant metalworking environment, and operator acceptance are beneficial over flood coolant systems.

Advantages:

- NATURAL BASE OIL
- EXCELLENT LUBRICITY
- MEDIUM TO HEAVY-DUTY APPLICATIONS
- EXCELLENT WETTING PROPERTIES
- STRONG BOUNDARY FILM LUBRICATION
- LOW VAPOR PRESSURE & NON-OBJECTIONABLE ODOR

Physical Characteristics:

Appearance	Blue viscous fluid
Active Sulfur	None
Total Chlorine	None
Silicones	None
VOC level	0.0%
Mineral Oil	None
Water Solubility	Insoluble

APPLICATION:

Use full strength. Do not dilute. Can be used with all micro-lubricant applicators.

Availability:

E-0200-01 1 Gallon (4/case)
E-0200-05 5 Gallon Pail
