TECHNICAL DATA SHEET

ACID CONCRETE CLEANER & ETCH

- Will Not Corrode Parts & Equipment
- Safe On Most Painted Surfaces

DESCRIPTION

A concentrated inhibited acid. A powerful blend of surfactants, inhibitors and acids that quickly removes lime deposits, scale, concrete, and mortar. Designed for use on cement trucks, metal forms, new brickwork, tools, and construction equipment. Easily dilutes with water for economy. Easily applied and used with pressure washer, sprayer, or brush. Makes an excellent dipping solution for brass meters, pumps, or other parts that need cleaning & descaling.

DIRECTIONS

CONCRETE & SCALE: Dilute 1 part of product with 2 to 8 parts of water depending on the buildup. Spray or brush product liberally over all surfaces needing to be cleaned and allow chemical to work. Brush if necessary to increase penetration. Rinse with water.

NEW BRICKWORK: Dilute 1 part of product with 2 to 8 parts of water depending on the buildup. Spray or brush product liberally over all surfaces needing to be cleaned and allow chemical to work. Brush if necessary to increase penetration. Rinse with water.

METERS & PUMPS: Dilute 1 part of product with 8 parts of water in a plastic bucket or container. Immerse meters, pumps, parts and allow to stand until scale & corrosion are removed. Rinse with water.

NOTE: Not recommended for use on aluminum or stainless steel. May be used as an immersion cleaner on ferrous metals ONLY if a rust preventative is applied immediately afterward, otherwise flash rusting will occur.

CAUTION: Contains Phosphoric Acid. Keep away from eyes and skin.
